

June 2015

**To WONCA networks and Special Interest Groups (SIGs)**

**To inform about an important occasion to lead sessions at the WONCA Europe 2016 in Copenhagen.**

Preparations for the WONCA Europe conference 2016 in Copenhagen are well underway. We want the special interest groups (SIGs) and networks to play a significant role in providing a valuable content.

Thus, the conference in Copenhagen 15-18 June 2016 will integrate the networks and SIGs into the program. We have arranged the conference in a way that every morning and every noon there will be a keynote presentation with a specific theme. To promote interaction between each keynote presentation and theme, we invite all networks and SIGs to arrange sessions (symposiums and workshops) within each of their specific areas and in continuation of the specific theme from the keynote presentation.

In this way we hope that the WONCA networks and SIGs will take the opportunity to appoint specific persons or groups to take responsibility for arranging these sessions when possible and relevant.

We aim to present new knowledge and future perspectives on the following themes:

- *The ageing Europe*
- *Making healthcare affordable*
- *The future consultation*
- *Diagnosing – a vital task for family medicine*
- *Inequality in health and specific patient groups.*

More information is available at [www.woncaeurope2016.com](http://www.woncaeurope2016.com).

When combining the conference themes and the keynotes presentations with such specific sessions, we hope that the delegates will experience a very comprehensive conference. Further, we believe that this will attract presenters and seniors within family medicine to make specific contributions to the sessions.

We hope that you will be able to contact us in the near future so that we can begin preparations and hopefully provide the best possibilities for your network or SIG. We would appreciate a response **before October 1<sup>st</sup> 2015** regarding your possible interest. Then we will inform about the details later.

Yours sincerely,

Peter Vedsted
